UNDERGROUND IRRIGATION SYSTEM NON-USE CERTIFICATION

VALID FOR CALENDAR YEAR NOTED BELOW

This is a one (1) year certificate and cannot be used again.

If you have not used your underground irrigation system for any number of reasons, such as a broken system, being out of town, vacant property, etc., you can certify you have not used the system by use of this form. This certification will give you a one-time pass for the required annual testing of your property's backflow prevention assembly. This form can be used one (1) time per customer, per property address.

Please read, fill in the blanks, and sign this form if you choose to certify your property's underground irrigation system has not been used, or will not be used, during the calendar year noted.

I, (property owner) _____ certify by signing this form that the
underground irrigation system located at (property address)

_____ has not been used,

or will not be used during the calendar year of _____. If for any reason, the
underground irrigation system at the above noted property is used during the calendar year noted, I
will have the property's backflow prevention assembly tested promptly by a tester certified in the
State of Oregon.

By signing this form, I understand I cannot use this form again regardless of the usage or condition of
my underground irrigation system and will be required to have the backflow prevention assembly
tested annually, unless I physically disconnect the underground irrigation system per Rockwood
Water PUD specifications.

Signature of Property Owner: _____

Printed Signature Name: _____

Date: _____
