TOILET REBATE PROGRAM
can save you
water and money.

By replacing old, inefficient toilets with WaterSense labeled models, the average family can reduce water used for toilets by 20 to 60 percent—that's nearly 13,000 gallons of water savings for your home every year!

Here are two great reasons to purchase your WaterSense® toilet right now:

1

Selecting the right toilet is easy, thanks to WaterSense® - a program sponsored by the Environmental Protection Agency. The WaterSense® label is used on toilets that are certified by independent laboratory testing to meet rigorous criteria for both performance and efficiency. Only high-efficiency toilets that complete the certification process earn the WaterSense® label.

2

Rockwood Water PUD offers customers a rebate when they replace a toilet that uses 1.6 gallons per flush (gpf) or more with a new WaterSense®-labeled toilet.
