

Cascade Well 9

The City of Gresham and the Rockwood Water People’s Utility District (RWPUD) formed the Cascade Groundwater Alliance (CGA) project to build and operate an independent, safe, and reliable water system. The new groundwater system consists of nine interrelated projects including renewed and new wells, treatment facilities, reservoirs, well connections and water transmission pipes. Cascade Well 9 is one of five groundwater wells developed through this partnership. The new well will expand the capacity of the groundwater system and ensure the City and RWPUD have a safe, reliable and abundant water supply for their customers.

Cascade Well 9

Kirkpark 1087 N.E. 188th Ave.

- 4 million-gallon-per day groundwater well
- Wellhead improvements
- Pump house
- Water transmission main to transmit groundwater to Cascade treatment facility

Project Status (Project 6)

Cascade Well 9

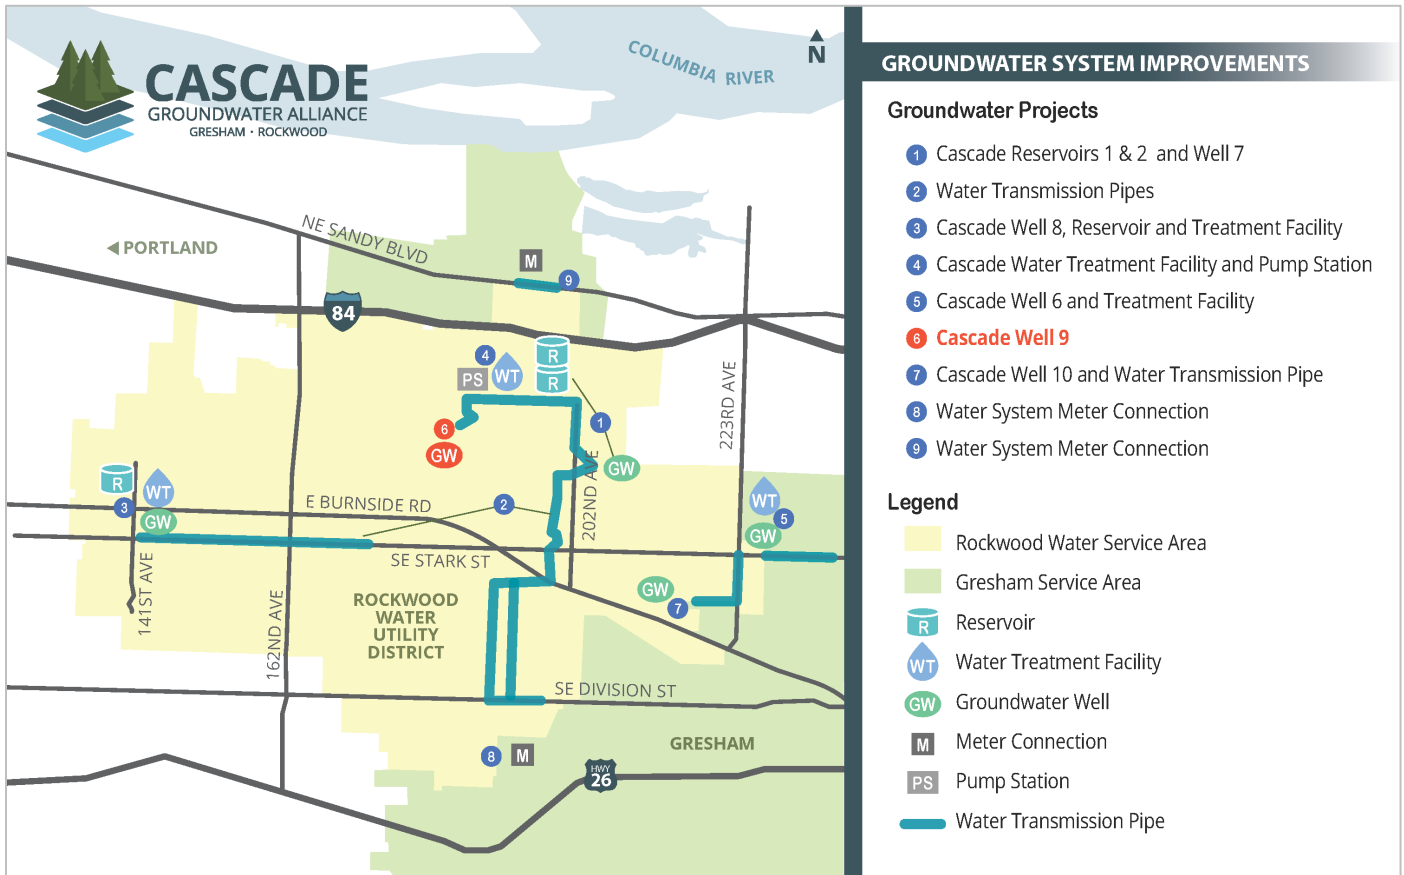

Construction start: Fall 2023

Construction complete: Spring 2025

*Dates are estimates only and subject to change.

Cascade Groundwater Alliance Project Map

Design and construction of the new groundwater system is underway across the service areas of Gresham and RWPUD in East Multnomah County. Cascade Well 9 is shown on the map below and is included in project 6.

About the Cascade Groundwater Alliance

The Cascade Groundwater Alliance is a partnership between the City of Gresham and Rockwood Water People's Utility District to build and operate an independent, safe, and reliable water system. For more information:
