ROCKWOOD WATERLINES

QUARTER 2 - 2023

OUTDOOR CONSERVATION KITS - NOW AVAILABLE

Warm weather is on the way! Stop by Rockwood Water today to get your outdoor conservation kit! Outdoor conservation kits are free of charge and include:

- Spray Trigger Hose Nozzle
- Hose Repair Kit
- Hose Timer
- Drip Gauge

Rockwood Water also offers Indoor Conservation Kits, a Toilet Rebate Program and more. Stop by the Rockwood Water office to pick up conservation items during business hours. For questions and additional information please email Government Affairs Coordinator, Nyla Clark at nclark@rwpud.org.

WATER FLUSHING PROGRAM

The District's annual Water Main Flushing Program has begun! It is important to flush the system to remove sediment from water mains throughout the District's system. The Water Flushing Program is part of the District's on-going water quality and system maintenance work.

For updated information on flushing visit rwpud.org/water-quality/water-flushing-program/

2023 WATER QUALITY REPORT

The Water Quality Report, also called the Consumer Confidence Report, is published annually by July 1. It will be posted on the District's website, and hard copies in English or Spanish will be available upon request. The webpage version will be translatable into several languages by clicking on the "translate" button.

A postcard will arrive in June, with details on how you can obtain a copy of the report.

CASCADE GROUNDWATER ALLIANCE PROJECT UPDATES

Cascade Well 8 (311 NE 141st)

Designs have begun on the water treatment facility, well house & reservoir improvements. Site improvement construction (Package 3) is scheduled for 2024.

Package 1 (NE 202nd Avenue, 19601 NE Halsey St, & Surrounding Area)

Cascade Reservoir 2 (CR2) improvements are complete. The reservoir will be put online in late April before the high demands begin for the summer.

Cascade Well 7 (CW7) startup will be later this spring.

Package 6 (Kirk Park (CW9) wellhouse and Transition Mains (TM))

Construction will begin soon.

Upcoming Projects:

Package 2A: Design for a TM to move water to and from the 141st Pump Station (PS) has begun. Construction to begin in the fall of 2023.

Package 2B*: Design is completed and will be advertised in late April. This is for a 36" TM from the District office location to approximately 202nd & Division, to supply finished groundwater to the District's Bella Vista reservoir and Gresham's Grant Butte reservoir.

Package 3: Design has begun for a 2-4 million gallon per day (MGD) treatment facility, reservoir upgrade and new wellhouse construction for our NE 141st Avenue site. Construction is scheduled for 2024.

Package 4: Design for Package 4 has begun. Package 4 is a 25-30 MGD treatment facility and PS upgrade, located at the District office location, on Halsey. Construction will begin in late 2023.

Package 5*: Drilling for a production well (CW6), near Stark & NE 223rd Ave, is nearly complete. Design for a wellhouse and treatment facility will begin in 2023.

WATER CONSERVATION TIPS

SUMMER TIME OUTDOOR WATERING

- Water your lawn in the early morning or at dusk to reduce the amount of water that will otherwise evaporate when you water in the heat of the day. Less evaporation means less water needed!
- Check your irrigation system once per week in the summer to ensure it's watering the proper areas and amounts.
